

# PLANA

Smooth, stable & versatile.

# The perfect combination of design, hygiene & functionality.

The PLANA WC partition system impresses with its clean lines, smooth surfaces, and contemporary design. Its minimalist look fits seamlessly into both wet and dry areas, ensuring maximum hygiene and long-lasting durability. Made from 13 mm thick HPL, PLANA offers excellent stability and resilience for everyday use. The easy-care surfaces ensure the highest level of cleanliness, while the thoughtful design guarantees efficiency in both construction and cost.

With 14 modern colour variations, PLANA opens up a wide range of design possibilities from subtle, understated tones to bold, striking accents. Whether for public institutions or high-end private projects, PLANA delivers quality, durability, and style with short production and delivery times, making it ideal for fast-paced projects.
